PATSEER

DRIVING INNOVATION

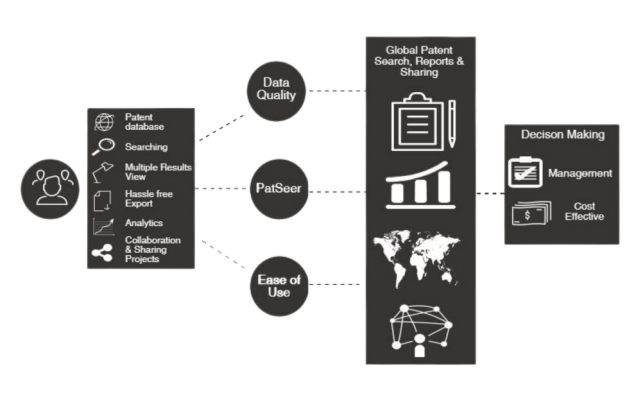
PATSEER PREMIERPLUS

AI-driven global patent research with integrated analytics and collaboration

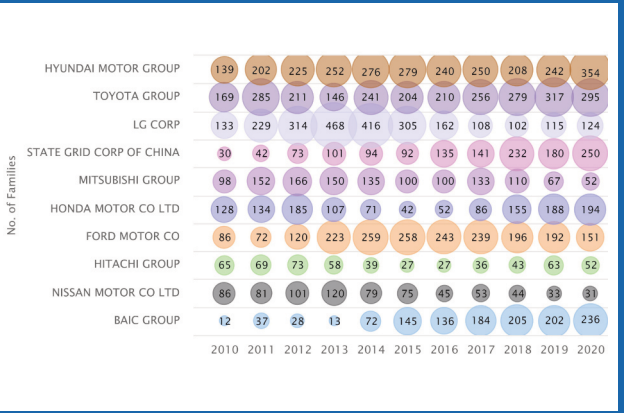
Why choose PremierPlus?

- Over 250+ fields and powerful searches like AI Search, Proximity Search, Image Search, and Chemical Lookup, etc.
- Power Review tools, featuring an AI assistant, multiple result views, KWIC with deep navigation, and a specialized drawings-only view
- Flexible Exports & Alerts - Export in various formats, configurable search alert
- Organize, track projects. Collaborate, analyze with charts and graphs

OVERVIEW



INNOVATION TIMELINE



The complete professional patent research & analysis package

A faster & smarter patent research solution for your whole company

CAPABILITIES

Search

Global patent data with AI semantic search and AI image search, supported by expert search forms and tools

Projects

Flags, ratings, custom fields for analysis with hierarchical categorization

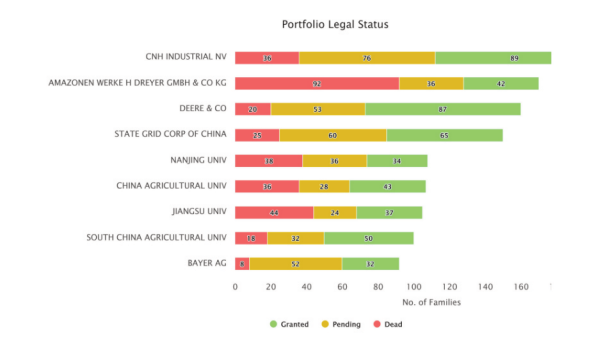
Collaborate & Share

Organize, track, and collaborate efficiently on projects, handling more than 70K records per project with integrated tools.

Analyse

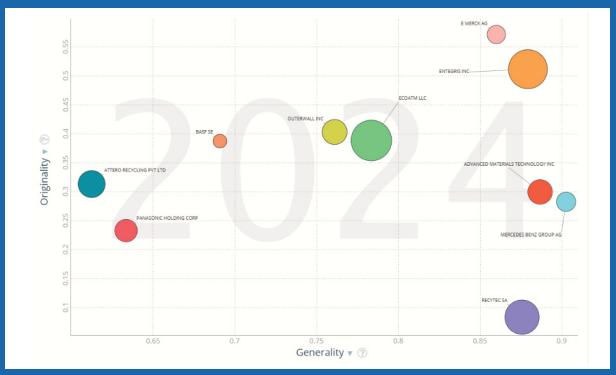
Utilize AI assistant for easy reviews, create organizational taxonomy, import custom metadata, and generate multi-dimensional charts for comprehensive analysis

PORTFOLIO LEGAL STATUS



RECORD ANNOTATION

TECHNOLOGY DEEP-DIVE



PatSeer is an AI-driven IP research platform trusted by 8,000+ professionals worldwide. Covering 170M+ patents from 108+ countries, it delivers comprehensive, accurate insights. PatSeer Designs leverages computer vision and advanced image recognition technologies to simplify industrial design search across 20M+ design registrations from 86 authorities.
